# Muhammad Bangash

IT Solution Architect @ Novo Nordisk | Software Engineering  
Student - Technical University of Denmark  
København og omegn

## Resumé

I am a passionate student of Software Technology at DTU and I love to dig into problems and solve them with modern technology. I create, scale and optimize software that matter. I focus on delivering clean code, building excellent applications and quickly adapting to new learnings.

I have enjoyed many projects through my student career at DTU. My personal and professional experiences have taught me the following about myself:

- I excel at the execution of big ideas with given constraints
- I put customers at the center of all that I do
- I educate, refine and drive myself to be a better person
- I am constantly learning because I never settle

I enjoy meeting new people and hearing new perspectives, Reach out if you want to talk to me about emerging tech, creating software products, or anything else.

## Professional Skills

JAVA | Kotlin | C# | HTML | CSS | React | Node.JS | JavaScript  
| Bootstrap | MVC | MySQL | SQL | .NET | REST API | Android  
Applications | Azure | Vercel | FrontEnd | BackEnd | Database |  
GitHub | Docker | Web-Development | Project Management | UML  
and Documentation | Agile Development | DevOps | Leadership

Please feel free to contact me via LinkedIn. I'm always looking forward to an insightful conversation over coffee.

---

## Erfaring

Novo Nordisk  
Information Technology Solutions Architect  
februar 2023 - Present (4 måneder)

Måløv, Hovedstaden, Danmark

I will be designing new architecture and the system for the new platform and integrating it with existing solutions. Some of the processes that are manually done today will be automatized in this process.
